Who we are and What we do.

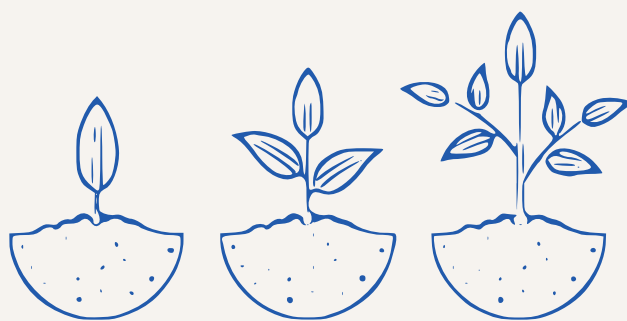

We have been building creative partnerships, workshops, and creative events for teams and groups for over a decade. You can bring your group to our studio in South Austin or we can come to your business, conference, retreat, or other space with all of the materials to create a memorable and unique experience for all to enjoy. Below are some of the creative projects that we offer. We also can customize a project that fits in with your events vision!

Whether you are a therapeutic group or corporate, let's create some magic together that will have your participants engaged and leave feeling connected!

MOSAIC

Community Building

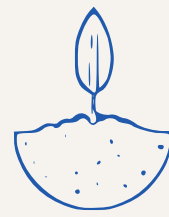

In this collaborative experience, participants will shape, decorate, and contribute individual clay tiles that come together to form a beautiful mosaic—a lasting symbol of unity, diversity, and shared vision. As we work with our hands, we'll also make space for conversation, laughter, and meaningful reflection on how each of us is a vital part of the bigger picture. This is more than an art project—it's a time to build relationships, express yourself, and leave a lasting imprint in a communal work of art.

1-2 Hours

In-Person

No
experience
needed.

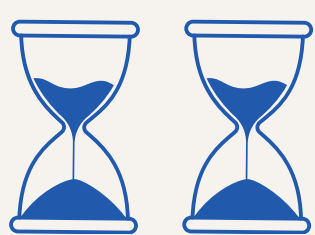

Supplies
included

Printmaking

Personal Symbols

In this reflective printmaking workshop, we'll explore the power of visual storytelling and symbolism as tools for expressing inner truths and uncovering personal purpose.

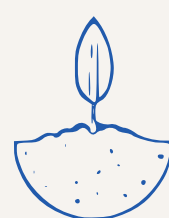

Through guided exercises in different printmaking techniques, participants will create original prints that speak to their unique journeys, values, and vision. Alongside the creative process, we'll engage in gentle reflection and group sharing to draw out the meaning behind the marks we make.
